BUSINESS PROFILE

Chatfield Constructions is an Atherton Tablelands locally owned and operated business, founded by Director Trent Chatfield in 2016. Trent commenced and completed his carpentry apprenticeship with award winning builder Vis Construction Pty Ltd. After completing his apprenticeship, Trent has worked for variety of builders, including Hutchinson Builders and has also been a contract supervisor for some of the regions top construction projects, including the Bryant Qld \$2.4million contract. The business has since grown over time, and built a strong reputation as a reliable and quality focused local construction company. Chatfield Constructions core business is commercial and residential construction. We are Highly committed to delivering quality projects on time, whilst establishing relationships based on performance, respect and trust. We provide the services to manage and carryout projects for a wide range of clients. With every project demonstrating a high level of detail and quality, Chatfield Constructions have emerged as a progressive and dynamic team in the construction industry. We are a multiskilled team that offer a complete service and take pride in being reliable at every point of the process.

Our extensive networks throughout Far North Queensland have resulted in mutually beneficial and successful relationships with suppliers, contractors, indigenous organisations, and community members. We foster a safe and dynamic work environment that encourages new ideas, innovation and growth.

We strive to deliver quality, professional and customer focused service, by getting to know our clients and being hands on and responsive to all our customers enquiries. Chatfield Constructions commits to deliver every structure with the highest standards. We ensure buildability without compromising quality or design. High quality doesn't mean high cost and we work with our clients to make sure they are getting the best possible value.

ENVIRONMENT

Our commitment to sustainable practices ensures that we identify, implement, and promote best practice environmental management systems and operations to conserve the environment for future generations. Our operations and staff are critical in ensuring that we meet our obligations to conserve resources and reduce our carbon footprint.

We value the environments that we build in. We are careful, we clean up after ourselves and work to recognised standards. For every project we consider and minimise soil erosion, waste, noise, dust, weed and water management. We monitor the effects of our operations on the environment analysing the results to continue to develop smart, practical measures that reduce our overall environmental impact

SAFETY

Providing a safe and healthy working environment for our employees is paramount. We take care to ensure that all our work practises comply with the Workplace Health & Safety Act and other relevant legislation, codes of practise and industry standards.

PROUD LOCALS

We believe in investing in people, in our community and we take every opportunity to develop the local economy. We take pride in working with the community to make our region a better place.

We employ three carpenters, an apprentice, bookkeeper, and administrator, helping our local community to grow and thrive. Our staff are reliable, trusted experts that help make Chatfield Constructions the business that it is.

We recognise that each member of our skilled onsite crew, administrative team and management personnel plays an integral role in our success.

PLANT AND EQUIPMENT

Our Range of equipment enables us to have the capacity to carryout multiple projects simultaneously. Our equipment ensures better efficiencies, quality of work, safety and overall job performance. We operate with a full range of equipment and services which enables us to be versatile in working with client on project of various scopes and sizes.

We Currently have the following assets in our fleet.
